

Advice on caring for pets in relation to COVID-19.

Please take note: the guidance is updated regularly so please do check back for any changes.

If you have symptoms or have tested positive for Covid-19 then current advice for the World Small Animal Veterinary Association recommends: "You should restrict contact with pets and other animals while you are sick with Covid just like you would around other people."

What to do with my pets when sick?

- Avoid contact your pet, including petting, snuggling, being kissed or licked and sharing food
- All household members should be following good hygiene practices when handling pets
