

Advice on caring for pets in relation to COVID-19.

Please take note: the guidance is updated regularly so please do check back for any changes.

All household members should be following good hygiene practices when handling pets. If you have any concerns about your pet or your pet shows signs of ill health, please do not visit the vet but phone for advice. As you will be unable to take your pet to the vet yourself, have a plan so that someone else can do this on your behalf.

What to do with my sick pet when I am also sick?

- Please do not visit the vet but phone for advice.
- Have someone else who is not sick to take your pet to the vet.
